“ Dear Beth:
I trust that you may have already received the e-mail I sent to you at your ecu.edu address. But, given the circumstances, you may not have so I am sending this one along to let you know that I fully understand your pain and sorrow. I lost my own beloved father five years ago (almost to the day) and so I can sympathize with you. It is an immense loss and one that will cause you grief for some time to come. However, at some point you will come to accept it and you will start to remember the good times and be grateful for the fact that you had him with you for as long as you did.
Please know that most of us in the college have experienced some such loss and stand ready to help you through this difficult time.
